

Academics

Subjects Handled

UG

- Signals and Systems
- Control Systems
- Analog Electronic Circuits
- Advanced Control Systems
- Digital Image Processing
- Network Analysis
- Digital Signal Processing
- DSP laboratory
- Basic Electronics Laboratory
- Analog Electronics Laboratory

PG

- Medical Image Analysis
- Image Processing Laboratory

Workshops Organized

1. One week workshop on “Programming Raspberry Pi Using Python” under TEQIP II from 5th to 29th January 2017.
2. One week faculty development programme on “Embedded System Design using ARM7 and TMS320C6713” at SJCE, Mysore from 14th to 18th July 2014.
3. Two day workshop on “Challenges in Medical Imaging” at SJCE, Mysore on 22nd to 23rd March 2013.

KSCST Sponsored Student Project

- “Sentry Defensive System”, Annapoorna G, Sanjana K S, Pooja M, Parvati S S, which was selected as the best student project for the state level exhibition under 38th series of student project programme during 2014-2015.

PROJECTS GUIDED:

- UG PROJECTS – 26
- PG PROJECTS – 18
